OUR MAIN SERVICES

We offer a comprehensive range of services focused on material handling and logistics

Forklift & Equipment Rental

We provide short-term and long-term rental of forklifts and other material handling equipment—an ideal solution for companies seeking flexibility and efficiency without the need for costly investments in their own machinery.

Forklift & Equipment Sales

We offer a wide selection of new and used forklifts and other equipment, tailored to meet customer needs.

Service & Maintenance

We provide complete maintenance services, including spare parts and battery supply, regular inspections, repairs, and servicing of forklifts and other material handling equipment.

Batteries & Service

We supply lead-acid and Li-ion (lithium-ion technology) traction batteries for a wide range of applications, including material handling equipment, electric vehicles, cleaning machines, aerial work platforms, and hobby applications, along with complete service and support.

Consulting & Technical Support

We offer expert consulting in material handling and logistics to help companies optimize their processes and efficiently utilize their equipment.

OUR MAIN SERVICES

Tender Processes & Equipment Procurement

We provide expert guidance in selecting the best material handling solutions tailored to your specific needs.

We can prepare custom proposals and handle both comprehensive logistics solutions and individual process optimization. Our services also include infrastructure setup for manufacturing and logistics operations.

Forklift Customization

We specialize in customizing forklifts and other material handling equipment to fit individual customer requirements, including adapting their appearance to match corporate branding and specific working conditions.

Our Strengths

Rental, sales, and servicing of material handling equipment, especially forklifts. Comprehensive solutions for corporate customers in material handling and logistics. Enhancing workplace efficiency and safety. Supporting customers in production, warehousing, and distribution. BPS Průmyslové Služby, s.r.o., is a fully Czech-owned company representing CAT® Lift Trucks in the Czech and Slovak Republics.
